

Hello, my name is Daniel Danbom,

Thanks, sorry to bore you with any of this stuff. Really it is just me, having as much fun as I can doing photography that grabs my interest, and hoping to bring home a few keepers. And if there are no keepers, hopefully it was fun just being out there, doing whatever it is I was doing, and come home refreshed and challenged having been "out there" pursuing the day. If you aren't having fun, then you need to find a new interest. If this is not enough of a credential, then you can read all the boring stuff about me below or go to [www.danigraph.com](http://www.danigraph.com) and take a look at some of my stuff. Thanks, Dan

The boring stuff:

I have been a photographer on the Monterey Peninsula for many years. My sister and I owned Quicksilver Fast Photo a consumer photo lab in downtown Pacific Grove for 20 years. We had a gallery area where we sold my local scenic photography, and my "Danigraph" branded photo note cards. In addition to the retail sales of his Danigraph Photo Note Cards, and prints, I also had wholesale sales to several Peninsula retail shops.

More recently, I have been doing commercial and client work, usually related to product and/or premises photography for small business, in conjunction with my web design services for some of these clients. I recently did magazine ad photos for Monterey Jet Center, and guided tour brochure photography for the Santa Clara Valley Water District.

Some of my stock, event, advertising and advertorial photography has appeared as Cover shots for Go Magazine that featured Pacific Grove's "Good Old Days." I have contributed many of the tabloid, poster and advertorial photos for "Good Old Days." I also have provided advertising and promotional images for local business promotions. My photos have been featured in client ads in Carmel Magazine and the CSAA Via Magazine.

I have been invited to be a contributing photographer for the Concorso Italiano. My photos have been used on the official Concorso Italiano website, and in the glossy Concorso Italiano Event Program. I have had advertising or editorial photos in publications that include Carmel Pine Cone, Adventures Monterey Bay Magazine and Monterey County Weekly, Cycle News and other publications. Also internet use of images by Conde Nast Traveller, Jet Set Magazine, Ferrari of Seattle and in the blog; Big Sur Kate, as well.

I was named Listeners'™ Choice "Best Photographer" of 2010 by the listeners of the Clear Channel Radio Stations of the Central Coast. The award was presented by Clear Channel Marketing Consultant Tamara Swanson.

If you are still reading this far, a some of my photo interests are automotive and race photography at Laguna Seca Raceway, mostly for my own enjoyment. Scenic and Landscape photography, and Condor photography. My photographic interests are diverse and eclectic. Some of my recent work is in a portfolio I compiled a few months ago and is on this web page on one of my websites. [http://www.danigraph.com/portfolio\\_1.htm](http://www.danigraph.com/portfolio_1.htm). I have also been working to hone my graphic arts/design skills, as well as pursue more skills in Photoshop and image manipulation.

Ciao for niao, Dan
