

## Les Ellis

Upon returning to California 20 years ago, Les embarked on a more serious journey into photographic artistry.

Through participation in Independent Photographers, PG Adult School Photoshop classes, and with the support of his wife Cheryl, he blends his deep interest in Classic Cars with the natural beauty of Monterey Peninsula and Point Lobos into a co-complementary image that harmonizes the beauty of both subject and setting.

His photos portray the world the way he would prefer it to be. Thereby many of his photos would qualify as "creative" in the PTCC sense.

Les has served as the facilitator for the Independent Photographers for more than 10 years.
