01-Alphabet.jpg

Pleasing arrangement of colors and inventive creation of letters. Maybe try to spell out a word or two and include an image of the pile of the things used to make the letters? It looks as though quite a bit of work went into the creation of this image. The materials used are inventive and the scale is well maintained. The background and colors also fits well with the design.

02-Mask.jpg

Simple and direct, yet very creative. Beautiful ... haunting. A bit too centered. Perhaps one could have added a hint of an eye?

03-Sibling rivalry.jpg

Beautiful dogs, but the masking seems too contrived and I miss the point of “rivalry”. A neat idea, but technically it falls short. Also, I do not see the “rivalry”.

04-Spam.jpg

Being from Alaska, we “get” SPAM. We even have/had a band called the Spamtone. However, I am at a bit of a loss here. Is the image a play on words spam, sale, ?????? I’m sure there is some humor here, but? I wish we could talk and you could tell me your thoughts!
