## **Robin Andrew Braunfeld**

My main interests in photography include Landscape and Nature, and the occasional Photo-Journalism and Travel categories. Of course I have dabbled in many other areas.

I was a member of the Marin Photography Club for 10 years and served as President for year and held many other officer positions during that span until I moved further north to Sonoma County.

I've won numerous awards at club level and council level (N4C) including Print of the year on 2 occasions, and Projected image of the year. I also was fortunate enough to win Best Of Show at the Marin County Fair.

I have judged at many clubs in the San Francisco Bay Area and I receive good feedback most of the time as well as return invites. I am considered a tough judge by most including myself, but that is because I want photographers to actually learn to make better images. I don't like 'fluff' critiques. I will be one of 3 judges for the Sonoma County Fair next month.

I honed my abilities to critique at <a href="www.photosig.com">www.photosig.com</a> writing more than 5,000 critiques. Some of my images can be seen there too.
