

PTCC Pictorial #3 Competition

Returns July 18, 2018

14 images from 5 members

01-Art Imitates Life.jpg

Great Portrait, Wonderful eyes. Composition a little distracting with the figure centered behind the girl, but that probably could not be helped

02-Favorite place.jpg

Calm, serene, nice tones

03-Harbor Seal Chillin.jpg

Great motion, use of slow shutter speed, Harbor Seal is a little soft though because of long exposure

04-Look but don't touch.jpg

Great color, nice reflections, only seeing a portion of the background car and the very top of the subject car being cropped is a little off setting.

05-Old and New.jpg

Good exposure and composition, nice scale

06-Oregon Coast.jpg

Nice scenic shot, good placement of house in composition

07-Prayer wheels - Tibet.jpg

Great shot, love the subject matter, I wish that the close prayer wheels were a bit closer so I could see the details better

08-Rainbow Kelp.jpg

The beauty in this shot is that the kelp is almost unrecognizable. The right corner pulls my eye away from the texture though

09-River of amber.jpg

Nice amber tones, good use of motion

10-Sunset- Galapagos.jpg

Perfect exposure for silhouette

11-The Picnic.jpg

Beautiful light, I would have shifted a bit to the left though so the table and the tree are separated

12-The Welder.jpg

Nice environmental portrait, good light on subject

13-The Writing Desk.jpg

Nice shot, it portrays a sense of the past, almost dreamlike

14-View from above.jpg

This shot has such beautiful light and texture, the wet sand almost becomes metallic looking
