Great vantage point and tonal scale. Really mysterious. Great use of shutter speed too. Sublime print and image.

Nice use of shutter speed. I like the mood and energy of the image.

Nature:

Ann'a Hummingbird in Garden.jpg

Dennis Giuffre

The sheen on the bird's iridescent feathers is beautiful and the miraculous way the flitting hummingbird was caught in flight is fantastic. Also, the backlit translucency of the bird's wings is something I haven't seen before. Thank you!

Photojournalism:

Fallen Tree Damages House during Storm.jpg

Dale Thies

While perhaps this isn't a typically journalistic grid of pictures, it tells the story of the aftermath of a storm. I like the way each frame is built and how the photographer has traveled around the scene and documented both the interior and exterior of the house from different angles.

Pictorial:

Sea Gull Feathers.jpg

Janet Azevedo

The abstraction of this image is beautiful as is the texture and the light. The white feathers seem to be caressing the dark feathers. A really subtle and beautifully seen image.

Travel:

Penguin Highway Antarctica.jpg

Dick Light

It's surreal the way the penguins are running toward the camera. I've never seen anything like this.
