# Custom House Winning Images:

---

**Third Place - ft-custom- as.jpg**

**Amy Sibiga**

*Judge's comment:*

*Beauty and importance. It would have worked even better to include the whole chandelier. Good color control*

**2nd Place - ft-custom-cg.jpg**

**Charlie Gibson**

*Judge's comment:*

*Beauty. I like the shadows on this one. It might look more important by shooting with the camera on the floor and including the receding posts more.*

**First Place - ft19-custom-drt.jpg**

**Dale Thies**

*Judge's comment:*

*Beauty and importance. Custom House is about custom and color photography is about color. This image of custom has great color control. I think it would have worked even better if you simplified the image by taking it straight on...making one item the subject...e.g. the rope... and composing just the two barrels on either side with a little floor and a little wall showing*
