Could crop just a little on the left to make the bird more prominent. Nice bokeh. Lovely print.

Focus is off. There is a stick in the middle of the face -- could have been photographed from a different angle, perhaps?

Good contrast and tonal quality. Not sure what the lines are in the feathers – Might be good to clone those out?

07-Lupin On The Hill.jpg

Chyrl Light

Absent of any distractions. Peaceful image.

Even though it's taken from a screen, focus could be better.

Needs to be spotted (white spots in several places) and sharpened. Cute idea!

Nice colors and good depth of field. I would like to see more of this flower. Perhaps cropped a little too much on the bottom?

There is also a small spider trail on the top left, which could be cloned out to keep the viewer's eye from being drawn there.
